PERSONAL SUMMARY

I'm a second-year student pursuing a Bachelor of Science in Mechanical Engineering. While my foundation is rooted in engineering, I'm deeply passionate about machine learning, artificial intelligence, and software development. My curiosity and drive to understand how intelligent systems work inspire me to grow every day — not just as an engineer, but also as a developer. I enjoy building web experiences and continuously explore the world of web development to sharpen my skills and share what I learn with others.

My mission is to bridge the gap between mechanical systems and intelligent technologies, blending creativity with code to shape meaningful, modern solutions.

EDUCATION

Bachelor of Science in Mechanical Engineering
University of Dar es Salaam, Tanzania
2nd Year Student | Expected Graduation: 2027

Lugoba Secondary School
Advanced Certificate of Secondary Education (2021 – 2023)

Azania Secondary School
Certificate of Secondary Education (2017 – 2020)

Holy Cross Primary School
Primary Education (2009 – 2016)

Bright Day Care
Early Childhood Education (2007 – 2009)

WORK EXPERIENCE
MMI Steel Ltd as my second year practical training program
Tanzania Steel Pipes Ltd (TSP) as a first year practical training program
Trainee in APIs, SQL, HTML, python for building projects

TECHNICAL SKILLS
Languages: HTML, CSS, C, C++, JavaScript, Python
Web technologies: Responsive Web Design, Git, GitHub
Tools: VS Code, Pycharm Community
Soft Skills: Team Collaboration, Communication, Time management

INTERESTS
 Machine Learning & Artificial Intelligence

Web Development & Front-End Design

Software Engineering & Smart Technologies

Sharing knowledge and building meaningful digital experiences

CERTIFICATES $ AWARDS
JKT, Zydii and School certificates

LANGUAGES
English and Swahili
